

Your panel, follow-ups, and MSP billing in one Canada-hosted workspace. PointClickCare is not required.

Works in the browser on your computer or phone. Android app available. After the first visit, sign in at roundsmd.ca — you open on **Today**.

Create account → Patients → Today → Claim

1 Create your account

1. Go to **roundsmd.ca** → Create account
2. Enter your name, **MSP**, and **CPSID** → **Verify**
3. Open the email and tap **Verify your email** — you land in the app
4. You'll see Billing Access. Tap **Start Claims Access** if you want MSP billing now, or skip and come back from **Claims**

2 Patients

1. Open **Patients** → **Add Facility** and search the home
2. **Add Patient** → PHN + date of birth → **Find patient** (name usually fills in)
3. Pick the facility and room → Save
4. Leave **Unattached** if they're not on your regular panel; uncheck it so they appear on Visits Due

Have a list? Email it to admin@roundsmd.ca and we'll import it.

3 Tasks (Today)

1. **Today** is your rounds screen: **Tasks Due** and **Visits Due**
2. **Add Task** → pick the patient, what to do, due date
3. Filter by facility when you work more than one home
4. Tap **Done** when finished, or **Done + Claim** if you're billing that encounter

Use Today at the start of rounds. Tasks are the follow-ups; Visits Due is who you haven't seen recently.

4 Claims

1. **Claims** → **Start Claims Access**
2. Short form: physician details, bank / direct deposit, then confirm
3. Once live: **Add Claim** from Today or Claims → pick the patient and codes → **Save Claim**
4. Saved claims submit automatically. Turn that off in **Profile** if you prefer to review first

You can keep using Patients and Today while MSP processes the forms. Pricing is **0.75%** of paid claims. Your first **\$10,000** of paid claims is free.
